DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are replete with grammatical and idiomatic errors as well as spelling errors. These errors make the claims difficult to understand. For example "spacdly" does not appear to be a word. Lines 10-11 are confusing in that it is not understood how many portions are being claimed. Further the disposition of the magnets is not clear. Are they on opposed halves of the handle?

Allowable Subject Matter

Claims 1-4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

The material contained within the claims appears to define over the art in that the combination of magnets, a T-shaped fastener, and the specific handle and slide structure is not shown or suggested.
